

Caring – for the Long-Term

Guided by Christian principles, **Durham Christian Homes (DCH), the sole non-profit and charitable long-term care home provider in Durham** has been caring for seniors since 1988. We are committed to providing a real sense of community and take pride in ensuring that our residents are treated with quality care, compassion, respect and dignity.

Glen Hill Terrace, our newest community of 160 long-term care beds, will provide a true continuum of care and will provide many benefits including:

- greater comfort and safety in a home-like setting

- enhanced privacy and dementia care
- private space to provide individualized care and services such as rehabilitation and physiotherapy
- air-conditioning and temperature control
- ability for current residents to transfer from one community to another
- quality care to meet the physical, emotional and spiritual needs of our residents in a Christian environment

Capital Campaign

The Glen Hill Terrace Project has been building “behind the scenes” for many years with the development and management of senior living apartments in Whitby and long-term care homes in Bowmanville. We are delighted to announce that Phase 1 of our redevelopment plan is currently underway, with construction currently underway for Glen Hill Terrace, our long-term care home in Whitby which will provide 160 seniors with individualized care in a comfortable, modern home.

Preliminary architectural drawings have been submitted, being mindful of cost and

feasibility while taking into account Ministry of Health and Long-Term Care standards as well as the quality and standards that our residents have come to expect. Our vision of providing a continuum of care in Whitby is finally coming to fruition!

YOU can become an essential part of ensuring this much-needed long-term care home is built on time and on budget. To make a donation, complete the donation/pledge form on the reverse and return it to us with your commitment.

Thank you for your support!

Questions and Answers

Q: When is construction anticipated to begin?

A: Construction began in July 2018.

Q: When will Glen Hill Terrace be ready for residents to move in?

A: Construction is estimated to take approximately 2 to 2.5 years. We are targeting construction to be completed in 2020.

Q: What is the current plan for the Long Term Care homes in Bowmanville (Glen Hill Marnwood and Glen Hill Strathaven)?

A: Our plan is to build the new Whitby long-term care home first (Phase 1) and then follow with a new Bowmanville long-term care home (Phase 2). An additional 124 beds were approved in December 2017 for Bowmanville, bringing the total to 224 long-term care beds once Phase 2 of our Redevelopment project is complete.

Q: How much will the project cost?

A: The long term care home is estimated to cost \$36 million. DCH is required to provide all equity and construction funding for the new GHT project. The Ministry of Health and Long-Term Care provides funding once the home is operational.

A DURHAM CHRISTIAN HOMES COMMUNITY

Questions and Answers

Q: When Glen Hill Terrace is built, will I/my mom/dad/loved one be guaranteed a bed/room?

A: The process for moving into long-term care works differently than our application process for Tekoa Manor and Providence Place. DCH seniors who require long-term care apply through their local Community Care Access Centre (CCAC) and should identify GHT as their first choice of home and desired room type. CCAC prioritizes residents on the waitlist based on need and preferences. GHT will have a Christian home designation and Christian applicants will

be matched to the new home. In addition, DCH and GHT staff will work with CCAC to advocate for all existing residents in our communities so that they can benefit from the DCH campus and continuum.

How You Can Help

Please accept my donation to the Glen Hill

Terrace Capital Campaign of: \$100
 \$250 \$500 \$1,000 \$5,000
 Other \$ _____

Single Donation Pledge

SINGLE Donation Method: Cheque** Cash
